Thief

A thief is someone that takes the property of another without right or permission.

Many women and girls have been victims of child molestation and incest. It has destroyed them mentally and emotionally. It has crippled them from being all that God has created them to be. Many are still living in the past and cannot go forward because of the past.

Many have fault God for the reason they were abused, but God has given each of us a freedom of choice. We choose what we want to do and God will not go over the persons' will even though it causes others to suffer. Just as God uses people, Satan

uses whoever yields themselves to him. It was not God's will for you to be hurt, but God couldn't go over the thief's will.

God wants you to be healed from the memory, from the emotional and mental pain, all you have to do is pray and ask God to heal your soul and emotions. Many have went to therapists and psychiatrists for years and are still in the state of mind they were in when they first began to go. Only God can go into the spirit and heart of an individual and make a change. Sometimes the memory will still be there, but the hurt and trauma to the emotions and heart will no longer be there. God can do for you what a therapist or psychiatrist can't do. It is God that will bring healing and deliverance.

Usually when a girl or woman has been taken advantage of sexually they become permissive. It's not that the person doesn't have morale, it's the spirit that has been left inside of them from the thief that has not been dealt with. Although there is a vast majority that

does not believe in God or Satan, it does not take away their reality. If an individual is not being used by God they will be used by Satan. Molestation, incest and rape are spirits manifesting in individuals and they have to be dealt with as spirits and not with the intellect.

Ninety percent of the time if a woman has been molested and the spirit has not been destroyed from the bloodline it will go to the next generation and her child or grandchildren will be molested or be a victim of incest. Women, we are talking about spirits that manifest themselves through human-beings. As women we have to be cautious for our children; be very aware of who you have around your children.

According to rape statistics ninety percent of child molestation comes from relatives, friends and neighbors. The highest on the list is relatives. In today's time we have to watch the women just as close as we do the men because if they aren't raping, they will set your child up to be raped.

The majority of the time we let our children go different places and we never check to see if they are where they say they are. Are they with the people they said they would be with. Secondly the people they are with, have you taken time to check out their character? Sometimes its not your child's friend, but it's the friend's, friend or relative that will take advantage of your child. As parents we must be more cautions with our children. They cannot see the danger and neither can we, if we don't be prayerful and let the Spirit of God minister to us about our children and their surroundings.

Teach your children boundaries for their bodies. Teach them not to be alone with adults for long lengths of time. Inform them to always try to be with other children.

Too many of our children have been hurt, many of our women are emotional and mental disturb because of the lack of precaution with whom they were friends with. If you don't have God as your Father, at least check out your instinct!

Wearing Death

Usually when you see a child wearing a symbol of a skeleton, they

aren't describing the supporting structure or framework of the body. What they are describing is

a symbol of death. Because we are spirit beings we draw other spirits to us whether they are good or evil by what we wear, listen to and watch. Satan has fooled so many parents that oh, its harmless, there is nothing to it, when actually the child is playing Russian Roulette. Satan will never come to you as Satan. Satan does not have horns, and is dressed in a red suit with a tail

and pitch fork. He's ministering to your children through different cartoons, movies, music as well as the clothing they wear. The death of children are high, some are killed by others and some are taking their own life, and its not because they have a mental disability, it because of the spirits we allow them to draw to them. We can draw either good or evil, see what your child is drawing!

Discipline

They passed the law, that if we discipline our children we can go to jail, but yet, when we allow them to do as they please and they disobey the law, they go to jail. Some of them are beat as well as murdered while supposing to have been in the protection of the law enforcement.

God's law will always out-weigh man made laws whether we believe in God or not. God has instructed us as parents to train our children, that is naturally and spiritually. God has instructed us that foolishness is bound in the heart of a child; but the rod of correction shall drive it far from him (Proverbs 22:15). God is not instructing us to abuse our children, but He is instructing us to teach and discipline them, if we don't the police and prison will.

We cannot say we love our children when we let them do whatever they want to do when they want to do it.

The older generation disciplined their children, and you didn't see as many deaths with children as you do today. It's because of the parent's obedience to God's word. It produced a protection for their children. The older generation was not drinking and getting high and partying with their children, but they were teaching them how to pray, how to live a moral life before God and man.

It takes discipline naturally and spiritually to succeed in life. If we don't teach our children the importance of an education, they will not excel academically. Discipline comes with how our time is spent. Discipline determines how much we will have in our savings when it's time for us to retire. Discipline comes with how much we accomplish through the day with our time. Discipline is important in every

area of our lives; for both you and your children.

It takes discipline to take the time and pray daily as we should as well as read the Bible. Many of the aggravations, grief and sorrow in our lives would and could be avoided if we took the time to get in God's presence so that He could instruct us with His wisdom and knowledge of how to handle or avoid the situation.

As we discipline ourselves, we can discipline our children. How can we show them discipline if we don't have it. Discipline will determine what you will be in life, what you will have in life, where you will be in life and where you will be after life!
